

BHSA Catch Up Premium

All Secondary Schools receive a grant from the DfE to help students who didn't reach the expected standard in Literacy and Numeracy in Key Stage 2 to help them to 'Catch up' in Year 7 and 8. At Birkenhead High School Academy we target pupils with a range of proven strategies in Maths and English with the aim of accelerating progress in the areas the students require extra support with.

Birkenhead High School Academy received in 2018/19 £6811. It is expected that 19/20 will be the same amount.

This grant has been used to part fund a teaching assistant who assists with intervention programmes such as precision teaching and small group support within the lower ability stream, which is small class with no more than 10 identified students, who are allocated to this stream based on their KS2 data.
