

Our core values are the heartbeat of our EYFS curriculum, shaping every moment of your child's day.

BE: RESPECTFUL

Children are taught to celebrate differences, experience global perspectives, understand and negotiate boundaries, experience collaborative problem solving and care for the environment. We are helping children build a robust internal compass fully equipped to step out into modern society as an empathetic, resilient global citizen.

BE: FORGIVING

We expand the children's connection to humanity and the world around them. Children are taught to reflect on their own and other's actions. We teach that imperfection is a natural part of life and encourage children to think: How do we make peace, heal the hurt, and care for our world tomorrow?

BE: KIND

We teach the children to validate themselves, celebrating their efforts not their outcomes by building resilience. This kindness ripples out to their immediate community (peers, family, and local heroes), and ultimately reaches the world around them, recognising that children learn that even though they are small, their choices possess genuine weight.
